

INITOM

FCT, Nigeria | +234 07066155554 | initom332@gmail.com | [LinkedIn](#) | Portfolio

Results-driven Data Scientist / Analyst with extensive experience in SQL, Excel, Power BI, and Tableau, specializing in transforming complex datasets into actionable insights that drive operational and strategic decision-making. Proven expertise in ETL processes, data cleaning, validation, and interactive dashboard development, ensuring high data integrity and streamlined analytical workflows. Demonstrated success in both corporate and project-based environments, including hands-on contributions to UNDP initiatives, translating project data into evidence-based insights and monitoring key performance indicators. Adept at collaborating with cross-functional teams, implementing advanced data modeling techniques, and presenting insights to stakeholders, leveraging strong analytical, problem-solving, and process optimization skills to deliver measurable impact across diverse sectors.

TECHNICAL SKILLS

- **Programming & Query Languages:** Python, SQL, Excel
- **Data Visualization & BI Tools:** Power BI, Tableau, Excel
- **Database Management:** Microsoft SQL Server, MySQL, PostgreSQL
- **Cloud & Collaboration Tools:** Microsoft Windows Server, Google Suite, Microsoft Office Suite, Slack, Zoom, Team Viewer

CORE COMPETENCIES

- | | | |
|-------------------------|----------------------------------|---------------------------------------|
| • Data Analysis | • Dashboard Creation | • Data Governance |
| • Data Visualisation | • A/B Testing & Experimentation | • Data Queries & Interpretation |
| • Data Modelling | • Statistical Computing Method | • Performance Metrics |
| • Business Intelligence | • Time Series Analysis | • Storytelling |
| • Predictive Modeling | • ETL (Extract, Transform, Load) | • Problem-Solving & Critical Thinking |

PROFESSIONAL EXPERIENCE

Data Analyst

Amdari Inc. UK

January 2026 - Present

- Interpreted intelligence and operational data using SQL and Excel, identifying trends and supporting executive decision-making, reducing reporting errors by 20%.
- Performed ETL processes on client data sources using SQL and Excel, streamlining data pipelines and improving accessibility and accuracy for downstream analysis.
- Developed interactive dashboards in Excel, Power BI, and Tableau using PivotTables, PivotCharts, VLOOKUP, INDEX/MATCH, and COUNTIF, simplifying complex datasets and improving stakeholders' understanding of key metrics.
- Conducted data cleaning, transformation, and validation using Excel and SQL, ensuring database consistency and information integrity, reducing data inconsistencies by 30%.
- Collaborated with cross-functional teams of senior analysts to solve complex analytical challenges, applying advanced data modeling techniques to enhance operational performance.
- Facilitated adoption of new data modeling approaches, prototyping solutions and integrating them into existing workflows using PostgreSQL and SQL Server, improving data processing efficiency by 25%.
- Created dashboards and visualizations to monitor triggers, constraints, and anomalies in client data, enabling proactive identification of risks and operational bottlenecks.
- Reviewed and validated database structures using SQL Server and MySQL, ensuring high-quality, reliable datasets for analytical projects.

Data Analyst – Project-Based (Hands-On)

United Nations Development Programme (UNDP)

6 Months

- Managed end-to-end data processes including collection, validation, cleaning, and transformation for multiple development projects, ensuring high data integrity.
- Streamlined data workflows and implemented quality assurance checks, improving processing efficiency and accuracy by 47%.
- Performed exploratory and quantitative data analysis using Excel and Power BI, generating actionable insights to inform project monitoring, evaluation, and reporting.
- Designed and maintained interactive dashboards and summary reports to track key performance indicators (KPIs) and support evidence-based decision-making.
- Collaborated closely with cross-functional teams to ensure consistency, reliability, and accuracy of data across multiple project streams.
- Assisted in preparing data-driven recommendations and presentations for stakeholders, enhancing transparency and informed planning.

EDUCATION

B.Sc. Architecture - University of Jos, Nigeria 2015 – 2022

CERTIFICATION

Data Analytics - 10Alytics
